3 April 2020

Dear parents and carers,

It seems strange to be saying this, but we have now reached the end of the Spring Term. What a term it has been! We all continue to find new routines and new ways of being in this strange world of social distancing. We hope that you and your family are keeping well.

What has been clear to us all at Stephen Hawking, is that although we may be more distant in geographical terms at the moment, we certainly are not as a school. We continue to be a close team working together to support our children.

We have been incredibly proud of all the children's hard work this term in school. I hope you have now received your child's end of term report in the post, and have enjoyed reading about all their achievements.

We hope you have been able to look at the 'Home Learning' section of our school website, and seen all the fun activities that you can try at home. You will find songs, stories, links to other websites, and you will see lots of familiar faces too! We are busy preparing some more personalised learning for your child, and you will receive more information about this after the Easter break towards the end of the month.

Jasmin, our home/school liaison officer, has really enjoyed getting in touch with everyone over the past two weeks. She will continue to do this after the Easter holiday.

If you or your family need any emergency support over the next two weeks, you can find further information on our website in the 'School Closure' section under 'Information for parents and carers'.

Have a really enjoyable break. Make sure you remember to follow all the government advice, so that we can all stay healthy and safe.

We will be back in touch after the break.

Yours faithfully,

Jennie Bird
